

GUNJI MANASA

PAVULURU, BAPATLA | +917093643527 | manasagunji103@gmail.com

A highly motivated and enthusiastic Computer Science graduate seeking an entry-level opportunity at Accenture to apply my knowledge of Python and problem-solving skills client-focused software solutions while growing professionally. Done a 3 months online internship on "Machine Learning" from ELEWAYTE

Educational Qualification:

Computer Science and Engineering -AI / ML 2023 -Pursuing
RVIT Autonomous Engineering College, CHEBROLU per-85%
Intermediate – Mathematics, Physics and chemistry 2021-2023
Sri Gowthami Jr College, INKOLLU per – 82%
SSC 2020-2021
ZP High School, PAVULURU per-85%

Skills:

Web Technologies : HTML, CSS, JavaScript (Basics)
Tools : VSCODE , Google COLLABE
Languages : Python,
Soft Skills : Communication and Punctuality

Project

Title: Deepfake Detection using Deep Learning.
Tools: Programming Language: Python, Development tools: Jupyter Notebook, Models: CNN, ResNet-50
Summary: The aim of this project to detect the real or fake images for the humans.

Internships:

Done a 3 months online internship on "Machine Learning" from ELEWAYTE

Roles and Responsibilities:

I assisted in developing and evaluating machine learning models by collecting, preprocessing, and analysing datasets.
I implemented algorithms using Python and popular ML libraries, performed feature engineering,
trained and tested models, and evaluated their performance using appropriate metrics.

Certifications:

Got certified on Block chain and applications from NPTEL
Got certified on Machine Learning from ELEWAYT

Achievements:

Got 2nd prize in zones kabaddi tournament
Inter college sports meet

Area of Interests:

Listening music
Playing Kabaddi

Languages Know:
